## Putting Data to Work: Using IDEA Data With Stakeholders Teacher Survey Data

A state is evaluating its middle school reading program:

- The program is for students reading at least two grade levels below current grade level
- Training on the program began in 2014
- Districts began implementing the program in 2015 for students in 6<sup>th</sup> and 7<sup>th</sup> grade
- The program was implemented in general education and special education settings

Evaluation questions:

- Are teachers implementing the reading program with fidelity?
- What factors are facilitating implementation and what factors are hindering implementation?

### Teacher Survey
