Exploring Preschool Discipline Data and Planning for Improvement Discussion Questions

Think about how your state and local preschool systems are organized.

Who else needs to participate?

Which groups or people have data that would help you better understand your preschool data?

Who are your partners in this work?

What other data do you need?

What are some ways you disaggregate your 618 Discipline data to gain a better understanding of preschool discipline?

What other data about preschool discipline are you collecting?

To be useful, data must be of high quality.

What concerns do you have about your data at the state or local level?

How are you working to improve the quality of your preschool discipline data?
